discussions and special sessions at the event.

Conference Introduction

2019 2nd International Conference on Nano Science and Technology (ICNST 2019: <http://www.icnst.org/>) will be held in Inha University, Incheon, South Korea during August 19-22, 2019.

It provides an opportunity for the delegates to meet, interact and exchange new ideas in the various areas of Nano Science and Technology. ICNST 2019 aims in proclaim knowledge and share new ideas among the professionals, industrialists and students from research areas of Nano Science and Technology to share their research experiences and indulge in interactive

Good News

1. Publication

International Journal of Materials, Mechanics and Manufacturing (IJMMM, ISSN: 1793-8198), which can be indexed by EI (INSPEC, IET), Chemical Abstracts Services (CAS), ProQuest, Crossref and so on.

2. Famous professors as Speakers

Prof. Masayoshi Tonouchi, Osaka University, Japan;

Prof. Takashige Omatsu, Chiba University, Japan;

Prof. Der-Jang Liaw, National Taiwan University of Science and Technology, Taiwan;

Prof. Hongwei Zhu, Tsinghua University, China;

Prof. Zhenyang Zhong, Fudan University, China.

3. Academic Visit

There will be a half-day academic visit in Inha University and half-day tour in Incheon on August 22, 2019.

Important Dates

Paper Submission	March 25, 2019
Notification of Acceptance	April 15, 2019
Registration	May 10, 2019
Conference Dates	August 19-21, 2019
Academic Visit	August 22, 2019

Call for Papers

Topics of interest for submission include, but are not limited to: Synthesis and Characterization Techniques of Nanomaterials, Properties of Nanoscale Materials, Nanodevices, Organic and Inorganic Nanocomposites, Molecular Nanoscience and Nanotechnology, Biomaterials and Nanobiotechnology, Nanotechnology in Structural Biology, Nanoscale Genomics, Nanomedicine, Nano Drug Delivery Systems and Biopharmaceuticals, Nanomaterials in Food, Agriculture and Water Purification, Smart Textiles and Apparels, Nanotechnology for Energy and Environment, Nanophysics, Nanophotonics, Nano-optics, Nanophotonics and Nanoplasmonics, Graphene and Its Nanocomposites, Nanoelectronics and Nanosensors, Computational Nanoscience, Value Addition to Mineral Resources, Green Nanotechnology, Nanotech Initiatives in State, Regions and International Arena, Novel Applications of Nanostructured Materials, Policy & Environmental Impacts and Standards, Nanofabrication and Characterisation, Commercialization, Safety and Societal Issues of Nanotechnology and Other related fields.
